## Liquid

### Electrolytes in Liquid

Product is a liquid electrolyte for poultry. The primary role of electrolytes lies in the maintenance of body ionic and water balance. During stress, the bird's electrolyte balance gets altered. Composition helps replenish the loss of electrolytes when the birds suffer from heat stress and /or dehydration.

#### Composition

- Calcium Lactate
- Potassium Chloride
- Magnesium Sulphate
- Sodium Chloride

KUNNJ

#### Indications

- Prior to and after transportation
- Stress condition
- In extreme temperature (high & low)

#### Dosage & Administration

Chicks : 50 ml/litre water  
Growers/Layers : 100 ml /litre water  
Or, as directed by the Veterinary Practitioner

**Packing**  
**1 liter**  
**25 liter**

# Livcare

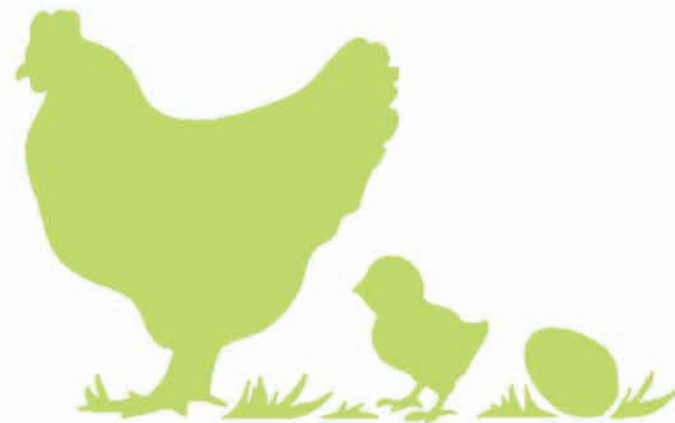

## Liquid / Powder

### Hepatostimulant & Hepatoprotective Liquid / Powder

Contains combination of natural herbs for hepatostimulant and Hepatoprotective activity

#### Composition

- Andrographic Paniculata
- Eclipta Alba
- Silybum Marianum
- Picrohiza Kurroa
- Phyllanthus Nirui
- Tephrosia Purpurea

KUNNJ

#### Indications

- Prevention of fatty Liver
- Increases feed Uptake
- General Liver Protectant
- Improve FCR

#### Dosage & Administration

Poultry CHICKS 5 grm daily  
Growers / Broilers 10 grm daily  
Layers and Breeders 15 grm daily Or,  
as directed by the Veterinary Practitioner

**Packing :**  
1 /5 liter **Liquid**  
25 kg **Powder**

# ImmuKING

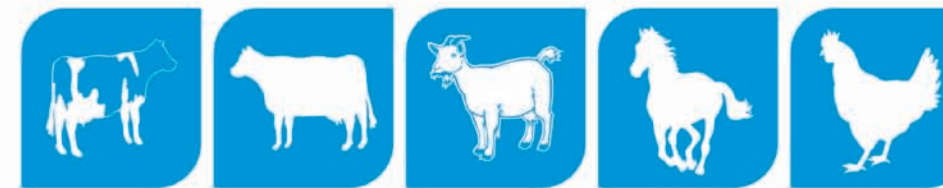

## Powder

### IMMUNOMODULATOR

Contains combination of vitamin E and selenium. Improves immune response & vaccine performance, prevents fatty liver syndrome, improves growth rate, reduces early embryonic mortality.

#### Composition

- Live Lactobacillus 500 mg.
- Dried yeast 200 mg.
- Sodium Chloride 100 mg.
- Sodium Bicarbonate 300 mg.
- Magnesium Sulphate 200 mg.

KUNNJ

#### Indications

- Stunted growth, emaciation & debility
- Delayed convalescence
- Improves Nutrition retention
- All types of stress
- Animal susceptible to disease
- Immuno – incompetent animals
- To be used as a vaccine primer

#### Dosage & Administration

Camel 30 gm daily  
Cow and buffalo 25 -30 gm daily  
Poultry 1 kg per tone of prepared feed Or,  
as directed by the Veterinary

**Packing : 25 g**

# K-cure

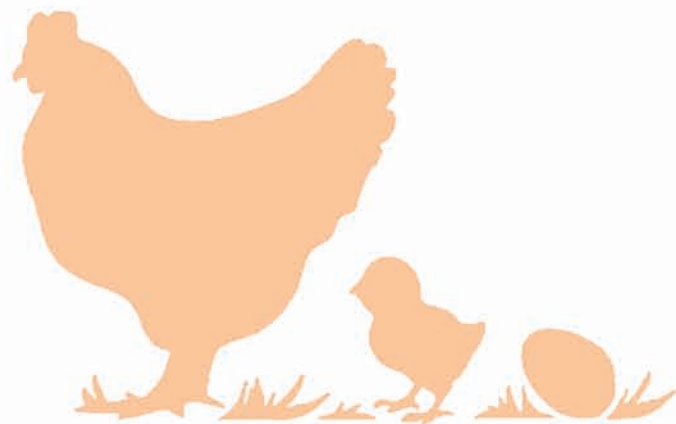

## Liquid

### Herbal Kidney Tonic for Poultry

Contains combination of natural herbs which offers to maintain kidney function, Flushes Kidney, provides protection to kidney

#### Composition

- Tinospora Cardifolia
- Asparagus Racemosus
- Bergenia Legulata
- Crataeva Nurvata
- Hemidesums Indica
- Cyprus Rotundus

#### Indications

- Flushes Kidney
- Improves FCR
- Reduce Mortality
- Improves Liveability and Production
- Reduces risk of Kidney Stones and Uric Acid

#### Dosage & Administration

Poultry : 1 lit in 1000 lit of Drinking water  
Or, as directed by the Veterinary Practitioner

**Packing**  
1, 5 liter

KUNJ

# Vitamin C

## Liquid

### Vitamin C from Citrus Fruits

Contains combination of natural fruits which provides VIT C and Provide antistress effect

#### Composition

- Embilica Officinalis
- Carica Papaya
- Citrus Limon
- Psidium guajava
- Citrus Sinensis

#### Indications

- Helps to support during stress conditions
- Helps to Support Healthy Growth & performance
- Helps to weight gain and Liveability
- Supports better feed intake and FCR

#### Dosage & Administration

Poultry : 1 lit in 1000 lit of Drinking water  
Or, as directed by the Veterinary Practitioner

**Packing**  
1, 5, 25 liter

KUNNJ

# Vitamin E

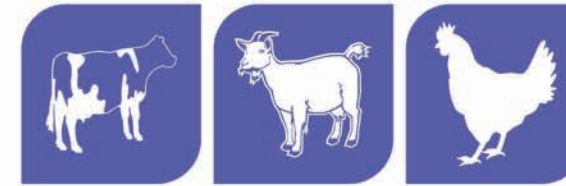

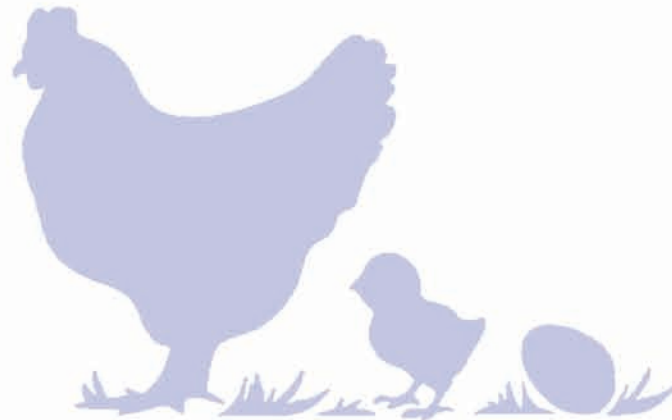

## Powder

### Vitamin E & Selenium powder

Contains combination of vitamin E and selenium. Improves immune response & vaccine performance, prevents fatty liver syndrome, improves growth rate, reduces early embryonic mortality.

#### Composition

- Vitamin E 100 mg
- Selenium 1 mg

#### Indications

- Improves immune response & vaccine performance by activating cell mediated immunity, antibody production & phagocytic activity
- Biotin prevents fatty and liver kidney syndrome
- Biotin improves growth rate
- Reduces early embryonic mortality
- Improves weight gain in broilers and egg production in layers by improving FCR
- Prevents diseases like Exudative Diathesis, Encephalomalacia (Crazy Chick Disease) and muscular dystrophy
- Improves fertility and hatchability in breeders
- Antioxidant activity of Vitamin E helps to relieve stress
- Overcome leg weakness and dermatitis

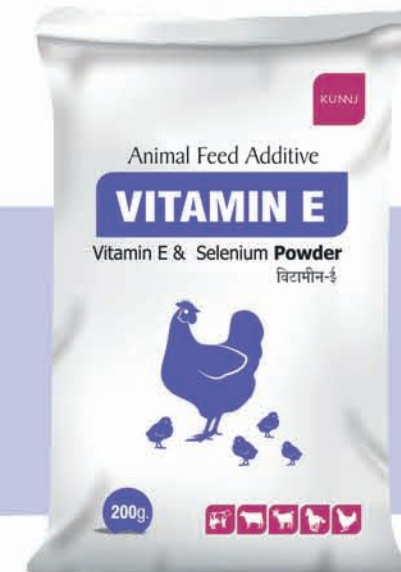

#### Dosage & Administration

Chicks, Growers, Layers and Breeders 5 g per 200 birds Broilers 5 g per 50 birds In feed 150 – 200 g per ton of feed Or, as directed by the Veterinary Practitioner

KUNNJ

**Packing**  
200 g.

# Toxinil

## Liquid

### LIQUID Toxin binder & MOULD INHIBITOR

Organic acid, Mannan Oligosaccharides (MOS), Activated Charcoal, Sodium Bentonite, HSCAS (Hydrated Sodium Calcium Aluminosilicate), Oxine Copper, Bacillus subtilis. Maximizes utilization of feed, improves overall immunity and productivity, prevents diseases of fungal origin, improves liver function and prevents fatty liver syndrome. Organic acid, Di- Sodium EDTA

#### Composition

- Di-Sodium EDTA
- Propionic Acid
- Acetic Acid
- Citric Acid
- Formic Acid
- Lactic Acid.
- Phosphoric Acid

#### Indications

- To reduce pathogen load
- To improve the FCR
- To prevent respiratory problem
- To prevent the incidences of salmonellosis and colibacillosis

#### Dosage & Administration

Poultry : 1 lit in 1000 lit of Drinking water  
Or, as directed by the Veterinary Practitioner

KUNNJ

**Packing**  
1, 5, 25 liter

# Livcare

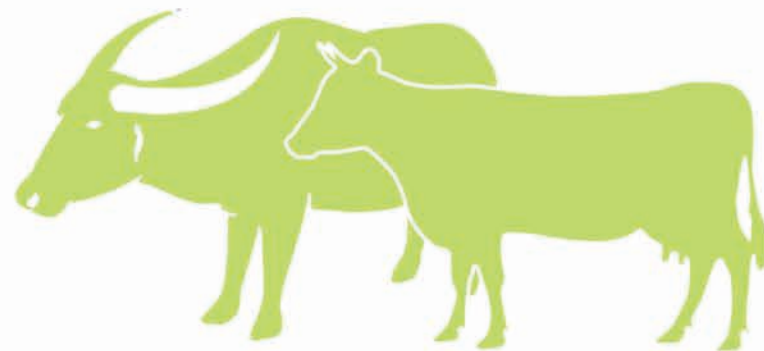

## Liquid / Powder

### Hepatostimulant & Hepatoprotective Liquid / Powder

Contains combination of natural herbs for hepatostimulant and Hepatoprotective activity

#### Composition

- Andrographic Paniculata
- Eclipta Alba
- Silybum Marianum
- Picrohiza Kurroa
- Phyllanthus Nirui
- Tephrosia Purpurea

KUNNJ

- Prevention of fatty Liver
- Increases feed Uptake
- General Liver Protectant
- Improve FCR

#### Dosage & Administration

Poultry Chicks 5 grm daily  
Growers / Broilers 10 grm daily  
Layers and Breeders 15 grm daily Or,  
as directed by the Veterinary Practitioner

**Packing :**  
1 /5 liter **Liquid**  
25 kg **Powder**

# Calsim

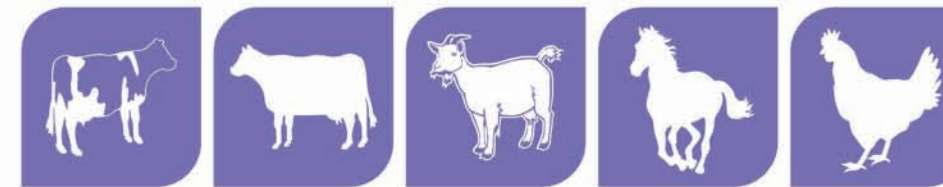

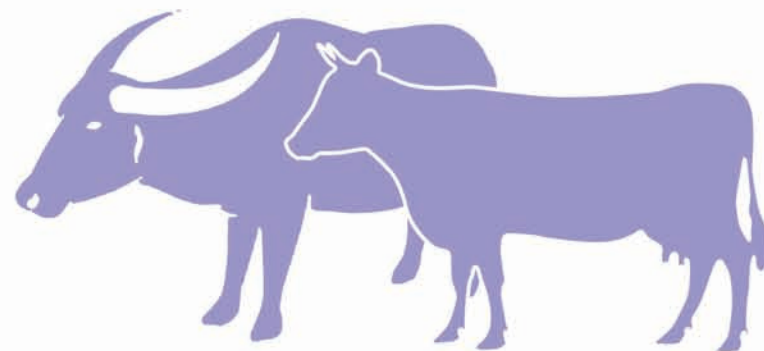

## Liquid

### Double strength calcium

Double strength calcium with phosphorous, vitamin B12, biotin, Jeevanti&Satavari.  
Oral solution for improving milk production & easy let down of milk.

#### Composition

- Calcium
- Phosphorus
- Vitamin D3
- Vitamin B12
- Biotin
- Jeevanti
- Satavari

KUNJ

#### Indications

- Overcomes calcium & phosphorus deficiency
- Improves milk production
- Facilitates easy let down of milk
- Improves general health

#### Dosage & Administration

Cattle 50 ml BID by oral route  
Or, as directed by the  
Veterinary Practitioner

**Store in cool and dry place,  
away from direct sunlight.**

**Packing :**  
1 ,5, 25 liter

# Soapho 99%

**Liquid**

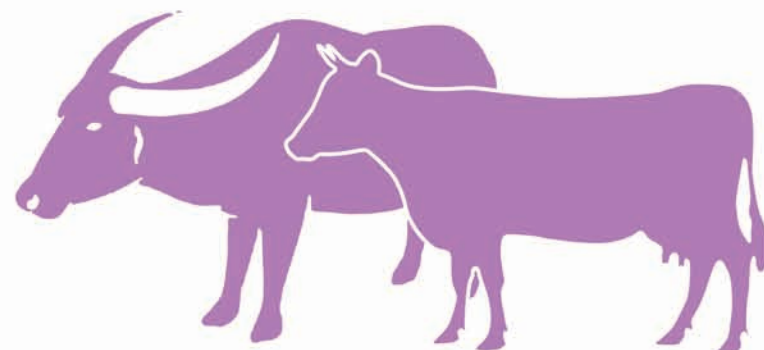

## Sodium Acid Phosphate 99% w/w.

Sodium Acid Phosphate 99% w/w.

P-Soda™ is indicated for hypophosphatemia, PPH, milk fever & PICA.

### Composition

- Sodium Acid Phosphate 99% w/w

KUNNJ

### Indications

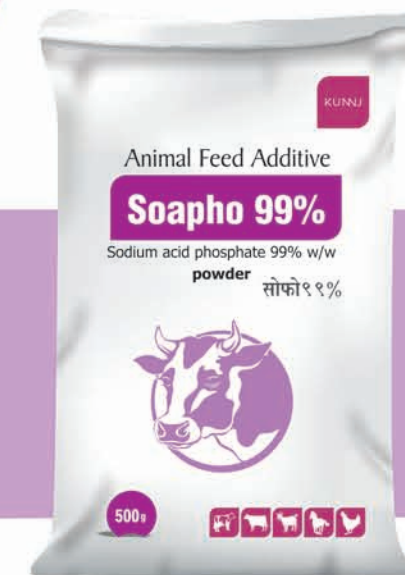

- Hypophosphatemia
- Post-Parturient Hemoglobinuria (PPH)
- Supportive therapy in milk fever
- Pica
- Improves conception rate & reproduction efficiency
- Improves milk production

### Dosage & Administration

Cattle & Buffaloes 60 to 100 g daily  
Mix 10 g of Product in each kg of feed  
Or, as directed by the Veterinary Practitioner

**Packing :**  
500 g.
